'Sasha' Black - A Patterdale Terrier X Jack Russell - Under attack from JP

A stroll into Kennall Vale Nature Reserve led us past the entrance house, the Old Pottery, finally finished and looking very nice. Limpet tried to persuade all the Hash up a wooded quarry face only to return to the track. The valley was full of roaring water, waterfalls and leats that became irresistible for Dishy Goolies to get everyone wet.

We managed to disturb volunteers repairing the nature reserve and a survey team working on the layout of the gunpowder mills and hey presto it was then the hash halt! Wow! So soon - but we did enjoy the consumption of Stella Beer, Softies, Pizza, Sausage Rolls, Pudding nibbles, chocolate and slices of orange - when did we last finish a Hash Halt by 11.45am!! Is this a record many would ask?

So the hash was over, or so one might have thought, but our Hares had other ideas. There was a need for ecclesiastical enlightenment, so it was on up and out at the top of the Vale and a circular route back to the pub past the little church with our priest of very Greek appearance that nearly led Dishy to join them - his sins of water splashing revealed!

The pub was warm and welcoming. Haz & Harricot donated a crab for auction - very much enjoyed by Papermate - it made 2 large sandwiches and a crab salad

Next Hash: Sunday 14th February 2010 - Miners at Mithian

Hares: Latex & Brussels
