

Hash Newsletter - Run 1264 25/09/2011

Haz & Haricot's HQ St Martin

After much deliberation I have decided to write this newsletter. If I had not written it I was promised a 'correction' session with a very strict schoolmistress! Despite the obvious attraction of this session I have put the needs of the Hash first, so...

We assembled chez Bean in anticipation of a long and interesting run, and we were not disappointed. 36 hashers set off with a spring in their step and ran through woods with gay abandon (who had to drop out later). We had a walker/runner split after a mile or so and then met up again later. After a few more miles of woods we came to a stream that could not be avoided and everyone (I think) went in and under a bridge. Then came the mud.

We waded along the river through water and deep mud for ages until we were exhausted. Several harriets became stuck including Knickerless, Blue Rinse and Jock Strap and had to be rescued by gallant hares.

We then ran on several more miles to a short hash halt and then a '10 minute' run back to the start, arriving back at 1.25pm, which could be a record. **A great hash.**

After a splendid meal of chilli and crab chowder we had the Down Downs. (full pints for a change).
