

TRURO HASH HOUSE HARRIERS NEWSLETTER FOR HASH 1328.

30 Hashers assembled in the Car Park of the Radjel Inn at Pendeen on a glorious sunny Sunday morning . Yes they do have them in Pendeen even in Movember !

But let me start at the beginning of the weekend on Friday evening when a small crowd somehow (we drove through very thick fog) gathered at Optic and Bobos' house to eat . Several people had provided food and drink . Thanks to all the budding Fanny Craddockses for a wonderful meal ! it was good to catch up with our friends from Okemont – Donut , Dunnee , DVK and another Hasher whose name I cannot remember but probably also started with D ! We had an enjoyable evening and were well stuffed with food and drink by Midnight or much later for some.

Saturday morning incredibly dawned bright and clear with a normally unseen bright object in the Sky . This was the day of our Penwith Ramble with thanks to Knickerless and Skids for choosing a route with a view . We climbed up out of Pendeen and onto the Moor and eventually came upon a fantastic stone Quoit (or Coat as they say outside Yorkshire). Then Skids directed us to an ancient Castle (Chunn Castle) from which you could easily make out the outline of the Scillies and also see the Lizard from the other side. But even this was not the highlight of the walk because we then walked back down the Hill into Morvah where a wonderful Gallery served Cornish Cream Teas . What a feast . Some then returned the direct route to watch the Rugby whilst the rest braved a more challenging walk back via a sewer and a slippery slope .

Saturday evening is Curry Night at the North Inn and so 30 of us repaired there for an absolute feast . We were warned not to take too much food first time round and there should be seconds for those with a big appetite but there was absolutely loads of food and some greedy people had 3 or 4 goes at filling themselves . It was great ! A choice of 4 different strength curries and massive popadoms. It was an eventful meal . Afterwards there was an Auction back at the Radjel and more drinking.

So back to the Hash . The Hares were Optic and Bobos who gave directions and we set off from the Pub soon to head up to the Moor. A lovely run on muddy paths with lots of shiggy and puddles and long stretches until a Morlaix Arrow which surprisingly was not at the top of a Hill for once but still a long way back for the FRBs . Then we climbed up to the Castle again and you could still see the Scillies . Back via the Quoit and a nice downhill path to Morvah again . This time no Coffee and Cream Tea stop was needed as we soon arrived at a

house on the outskirts of Pendeen with an HH sign in the Garden and a table laden with home cooking and drinks . Lovely Hash Halt and just a short way back to the Radjel.
