Hash No. 248

4 July 1993

Venue : Tricky Dickies

Hares : O S & Dibber

Grey, wet, misty, murky but at least it was cool when we gathered, on this summers day, ready for the On On.

After a false start with the whole pack charging off confidently in the wrong direction, Twiglet lead the way down under the viaduct and down a steep bank. On his arse I was later to gather when he complained of a shortage of skin in that area.

Next the stream where Airleg was heard to comment that "something passed him that he thought he might have passed earlier". At one stage it seemed that the faster runners had gone to that Great Hash in the Sky as the On On seemed to be coming from above and as the writer was going through one of many 'pain barriers' it seemed rather ominous.

At the Halt the 'Charlies' left us, from Dibber's later comments he even had a lot of difficulty getting them to show any enthusiasm??? for even the shorter course, complaining bitterly that he hadn't had a chance to raise a sweat when he met us at the final Halt.

The Hares showed new depths of Sadism when they took us passed the 'Cornishman' 10 minutes before opening time.

Shortly afterwards Escargot was seen to be leading the Hash which earned her a Water Down Down. Encouragement to take the fore and the proposal for the Down Down had come from BJ. The very same BJ who had earlier been heard to remark "I'm not!!" when someone announced "we're missing Escargot" at an earlier Halt. Watch your back BJ..

The final memory I have was the last Halt where the Hares provided us with a water-melon, an excellant final touch to a good run, well set and of sensible length.

Thanks go to Tricky Dickie for the use of his facility.... showers... barbeque....plates etc.
