

Hash 987

The Dolphin Inn, Cranpound

Hares Edith + Sue, droop

Date: 27-08-06

The hash started nice + sunny with 39 hashers, we crossed the road and set off! ON, ON! We reached the top of the hill and found out there was a morlaix arrow that meant we had to run all the way back down the hill around the last hare and back up again. Soon after we reached a bridge. Yep you guessed it! We had to go under the cold, damp bridge, through ankle deep water and get splashed by liability and latex. So walking up yet another hill we were all absolutely soaking but on the bright side it was still sunny. Of course not every one was wet, they were the ones that chickened out and sneaked over the bridge, they missed out on all the fun! After that the time seemed to go really fast and soon we were at the Hash Halt which was layed on by Sue + Edith. It was great there was sandwiches, miny drumsticks, dips and of course plenty of much loved beer! Edith + Sues house was right next to the dolphin inn ~~so~~ ~~enjoyed~~ So everyone piled into the pub and enjoyed, yet more beer!
